

## **List of Memorials in St. Mary's Church**

### **Note**

The memorials are recorded around the Church in a clockwise direction. A system of numbering has already been established, and in the same direction. This is used to identify the memorials by adding a letter of the alphabet, firstly for the nearest, and then for the highest. The memorial is recorded by the surname and the date of death. Those under the tower are numbered in a similar pattern, T1, T2 etc.
